DETAILED ACTION

1. Claims 1-39 have been presented for examination. Claims 35-39 have been canceled in an amendment filed 01/20/2006 in response to a restriction requirement. Claims 1-34 have been examined.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 26-34 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 26-34 are drawn to a system comprising solely a database and are nonstatutory as containing nonfunctional descriptive material and its arrangement. See MPEP § 2106 IV. and *In re Warmerdam*, 33 F.3d at 1361, 31 USPQ2d at 1760 (Fed. Cir. 1994).

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-3, 13-16, and 26-31 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Application Publication No. US 20030233438 A1. This reference discloses a leveled vulnerability archive to obtain information regarding a vulnerability (see ¶ [0049]).

Allowable Subject Matter

5. Claims 4-12 and 17-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
